Neptis miah nolana

Male upperside

Male underside

[<< Back to Nymphalinae overview](#)

H. Druce 1874 - The Small Yellow Sailor

Koh Samui only.

Sexes similar.

Although regularly seen, it can not in any way be described as common. Generally to be found in forest clearings. This is the only member of this genus found on Samui to have orange markings. It can, however, be mistaken for members of both *Lasippa* and *Pantoporia* genera.

Flight Period

Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
x	x	x	x	x	x	x	x	x			x
